## PROJECT TYPE

Division 10 Specialties

## MANUFACTURER

Construction Specialties

## PRODUCT

Acrovyn by Design

## ARCHITECT

EYP

## GENERAL CONTRACTOR

Vaughn Construction

## CLIENT

Memorial Hermann

## LOCATION

Houston, Texas

## PHOTOGRAPHY

Vaughn Construction

## COMPLETION

October 2021

## OBJECTIVE

To provide unique interior wall coverings for an expanding medical campus.

## BACKGROUND

Memorial Hermann-Texas Medical Center commissioned a \$700 million renovation to expand life-saving care for patients in Greater Houston. The 17-story tower equips the Texas Medical Center with an additional 1.34 million square feet – bringing the full size of the campus to 3.84 million square feet.

## SOLUTION

We installed 6,200 4' x 10' Acrovyn sheets throughout the tower for a total of 248,000 square feet of wall coverings.

## RESULT

The bright and colorful Acrovyn by Design wall coverings help make the busiest trauma center in Texas more comfortable for patients receiving treatment for their trauma, critical care, and heart and vascular needs.

The project has added 24 new operating rooms – 3 of which are hybrid – and 186 new patient beds. It is a testament to Memorial Hermann's commitment to providing excellent outcomes and innovative healthcare in a state-of-the-art space.
