OBJECTIVE

Remove and replace existing skylights with new Kalwall system.

BACKGROUND

Original skylights were outdated and discolored. The existing system had leakage issues which affected the day to day activity in the area underneath.

SOLUTION

Replace weathered old skylights with new Kalwall system.

RESULT

Beautiful new Shoji Pattern Kalwall skylights that both brightened the space and improved building efficiency. The Kalcurve system is strategically placed on the area of the hospital with the highest amount of foot traffic. This creates an inviting atmosphere which gives the workers and visitors a blissful demeanor as they move through the building.
